Hello   Welcome to Transkriptwunder.com!

We are happy that you consider to join our big team. Please let us now :

What type of project would you like to do?

When is the best convinient time for you to work and how many hours per week would you like to commit working on traskripwunder projects ?

Please leave us your contact information so we could contact with you

Thank you for your time

I will contact with you as soon as possible.

Sincerely,

Transkriptwunder Team!

## Compare Balsamiq to Moqups

### Balsamiq

Easy to navigate and use  
Organized and Clear menu panel  
More options for Icons, forms, buttons

### Moqups

Menu panel on left side easy to navigate compare to top menu in Balsamiq  
Can customize and upload a pictures

UX homework is based on

<http://transkriptwunder.com/contact-as-worker/?lang=en>

i picked a different topic for this assignment  
to practise UX analysis

### Cons

The website is overloaded with information  
The website does not provide full information for the user

What we can do :

Simplify info and short information  
Leave information that a first time visitor might ask

who are they?  
what services?  
how much?  
how fast?

Additionally we can make information more interactive using  
Narrative Web Forms
